Ecreso FM 5-10kW

Efficient. As Solid as a 1+1. Feature-Packed.

Ecreso FM 5-10kW is a fully digital transmitter for analog FM and is the most powerful flagship product in WorldCast Systems’ Ecreso portfolio.

Engineered to meet the needs of the most demanding network operators and stations, it combines reliable performance, highest efficiency, and state-of-the-art innovations. Truly revolutionary, Ecreso 5-10kW has a built-in 1+1 redundancy which ensures it stays on-air with minimal or no power loss.

With the Ecreso FM 5-10 kW, broadcasters benefit from reduced maintenance thanks to hot swappable power supplies, power amplifiers and fans, as well as a multitude of onboard features such as SmartFM, an AI technology bringing from 10 to 40% energy cost savings.

This advanced broadcasting solution is the result of decades of experience and a mission to bring to market the best FM transmitters in terms of quality, total cost of ownership, and audio quality.

Ecreso FM 5-10kW Benefits:

Market-Leading Expertise
60 years of expertise developing RF solutions and deploying several thousands of systems worldwide enables WorldCast Systems to accompany Ecreso FM 5-10kW with a range of services and warranties.

Lowest Operating Costs
Thanks to cutting-edge innovations and an intelligent design, Ecreso FM 5-10kW offers high efficiency, reduced consumption and easy maintenance. All-in-all the lowest Total Cost of Ownership.

Highest Quality To Listeners
Ecreso FM 5-10kW brings amazing audio to your radio broadcasting thanks to the direct-to-channel digital modulator, 5-band sound processor, and MPX over AES compatibility. It’s 1+1 built-in redundancy also keeps you on-air, at all times.

www.worldcastsystems.com
**Market-Leading EXPERTISE**

Customer support: Expert technical support team to accompany you for installation, configuration, maintenance, repairs, and on-site field operations

Turnkey solutions: Ecreso FM is available as a standalone unit or as a system, including peripherals and rack integrations

Project assistance: Site visits, factory acceptance tests, team trainings, installation support

Up to 10-year warranty

**Lowest OPERATING COSTS**

Up to 76% efficiency thanks to state-of-the-art technology such as 6th generation MOSFET and Planar Design + SmartFM

Many onboard functions: Sound Processor, Dynamic RDS Encoder, Digital Stereo Encoder, Audio Backup, MPX Power Limiter, Scheduler, SFN compatibility, GPIO...

High reliability: The product undergoes Highly Accelerated Life Tests (HALT), Parts Stress Analysis (PSA), Failure Mode Effects and Criticality Analysis (FMECA), burn-in...

Simple control and monitoring thanks to a user-friendly web interface, Advanced Measurement Interface (AMI), 24h graphical history log and Expert Maintenance Reporting (EMR)

Full SNMP management
- Up to 4 SNMP managers
- Control and monitor all parameters
- Alarms by SNMP traps and e-mails

Reduced maintenance with hot-swappable power supplies, power amplifiers and fans

Customized air flow configurations

---

**Highest QUALITY TO LISTENERS**

Built-in 1+1 level of redundancy that keeps you on-air

Direct-to-channel digital modulator
- Highest signal quality / Perfect audio fidelity
- Several built-in broadcast tools
- Control of all signal parameters

5-band sound processor

Digital MPX over AES

Audio Backup
- Silence detect on all program inputs
- Intelligent automatic auto-switch and recovery
- Internal player from µSD card

---

**10-Year Warranty**

Ecreso offers a standard warranty of 3 years on all FM transmitters and up to 10 Years, yes TEN YEARS Warranty, for a small additional charge. No other FM transmitter manufacturer even comes close to that commitment or confidence!

This 10-year warranty, unique on the market, is possible thanks to:
- Exceptional product design
- Outstanding transmitter efficiency
- Advanced diagnostic capabilities
Ecreso FM 5-10kW  
**Built-In Features**

**SmartFM ARTIFICIAL INTELLIGENCE**

Worldwide patented technology for FM transmitters which revolutionizes FM radio broadcasting and brings massive benefits to broadcasters, radios, and their audience of listeners.

- **Enhances the radio listening experience**
  for the most sensitive content
- **Lowers energy costs by 10 to 40%**
  thanks to electricity savings and reduced cooling
- **Reduces CO₂ emissions**
  for a cleaner, more sustainable environment

**FREE EMR 6 months**

**5-Band SOUND PROCESSOR**

Craft Your Own Amazing Sound

- Hosted in direct-to-frequency digital modulator
- Highest quality processing from audio input to RF output
- Powerful DSP-based processing
- Complete 5-band architecture
- Factory presets for all formats
- Easy to fine-tune through intuitive Graphical User Interface
- Real-time meters at each stage
- No additional hardware: maximum reliability, no maintenance
- MPX Power Limiter (ITU 412)
- Wideband sound processor comes standard; 5-Band optional

**AS SOLID AS A 1+1**

Unrivaled RF output recovery scenarios:

- 1 PSU loss: 10kW on air
- 1 MOSFET loss: 10kW on air
- 1 Fan loss: 10kW on air
- Control unit loss: 10kW on air

**Sound Processor Interface**

**10-40% Energy Cost Savings**

- Dual mains breakers
- Up to 8 x 3.5kW power supplies with load sharing
- Up to 6 x 2.3kW power amplifiers
- Passive coupler with maximum robustness and oversized coupling loads for unlimited operation on fault
- Redundant digital exciters
- Redundant fans cross fed by redundant PSU’s

**Expert Maintenance Reporting (EMR)**

EMR is a proactive cloud service which sends regular reports on the status of key parameters such as temperatures, currents and voltages, plus information on the performance and lifespan of components such as the fan and the power supply of the transmitter.

Thanks to a powerful firewall-friendly Web protocol, EMR works securely over a regular Internet connection (ADSL, 3G, …) even when the connection bandwidth is limited.

**Composite operation**

- Bandwidth: > 20 Hz to 15 kHz @ 0.1 dB
- Intermodulation distortion: < 0.05%
- FM S/N ratio: > 80 dB RMS @ 7 kHz deviation
- AM noise: > 55 dB, weighted/unweighted, sync/async, RMS/CCIR (20-20 000 Hz)

**Stereo operation**

- Bandwidth: > 40 Hz to 15 kHz @ 0.1 dB
- 38 kHz discontinuance: > 50 dB
- Stereophonic crosstalk: > 50 dB

**Mono operation**

- Bandwidth: > 40 Hz to 15 kHz @ 0.1 dB
- Out of band rejection: > 40 dB @ 19 kHz
- Preemphasis: 0 µs, 50 µs or 75 µs

**Environmental / Physical specifications**

- Overall dimensions: 29U x 600 mm x 1040 mm
- Weight: -330 kg, -727 lbs, -400kg, -881 lbs
- Operating temperature: Nominal: 5°C to 45°C, 41°F to 113°F - Maximum: 0°C to 50°C, 32°F to 122°F
- Warehouse temperature: -20°C to +70°C, -4°F to 158 °F < 10 years
- Humidity: 5 - 95 % non-condensing relative humidity
- Altitude: Up to 3900 m - 12795 ft
- Cooling: Customized external or Internal air cooling configurations
- Marking: CE, FCC
- Directive and standards: RED 2014/53/UE, EN 301 489-1, EN 60215, EN 301 489-11, EN 302 018-2, EN 50581

**Standard Version**

**Order information**

**Hardware Options**

- SP02167: Mains power on/off switch
- ST01276 or ST01615: Digital or Analog GPIO board
- AL00122: Additional Power Supply 3500W
- ST01792: SFN Option
- On request: External Surge Protector

**10-year warranty**

- EMR7: 10-year warranty for ECRESO FM 5kW
- EMR8: 10-year warranty for ECRESO FM 10kW
- EMR6: Expert Maintenance Reporting

**On-Demand Services**

- Dummy loads, adapters, cables
- Cavity filters, combiners and antenna systems
- Coverage Study
- Tunkey solutions for broadcasting site
